# ATM COMPLETE™

ATM Outsourcing made Simple

Working with Sharenet's ATM Complete program provides a path to reduce costs for on-site and off-site ATMs. Decreasing your costs to deploy your ATMs allows you to enjoy more profits and fewer expenses.

Sharenet handles it all for you

Sharenet will handle everything from obtaining the ATM to maintaining and servicing your entire ATM network. All the back office support and critical settling of your funds back to your account will be performed by Sharenet. Sharenet handles all aspects of managing your ATMs by providing a turnkey ATM solution.

Sharenet's ATM outsourcing removes the typical ATM headaches by:

• Reducing operational costs
• Easing the stress of back office resources
• Managing the changing ATM regulatory environment
• Providing maintenance services that meet your expectations
• Monitoring armored service deliveries
• Deposit imaging installation/setup

Financial institutions have an average of $700 per month loss at each off-premise ATM they deploy (Dove Consulting).

What does this mean for you?
